Subject : **REFERENCE LETTER – GELUIDBURO**, Hendrik Figeeweg 1–U, 2031 BJ Haarlem (Attn. Mr. J. Bril)

---

Dear Mr. Bril,

Upon your request, you will receive our confirmation as a reference.

Het Geluidburo advised the Rosa Spier Huis at an early stage of the new-build project on the acoustic aspects of the so-called Anne Stibbe Music and Theater hall. The hall has a slightly curved seating arrangement and a particularly intimate character and has 150 regular seats and 10 wheelchair places and includes a balcony on three sides. The dual use for both music and theater, in particular, was an important challenge. More information about Rosa Spier Huis: [www.rosaspierhuis.nl](http://www.rosaspierhuis.nl)

Melior Real Estate BV acted on behalf of the Rosa Spier Huis as delegated principal of architect and consultants including Het Geluidburo. The building and the hall were designed by EGM Architecten. Theateradviesbureau advised on technical theater aspects with the exception of acoustics. The wall, floor and ceiling of the hall were defined in close collaboration with interior architect SherylLeysner from Amsterdam.

Het Geluidburo has also made a very meaningful contribution to the selection of the supplier of the sound system, which was supplied and installed by Audio Electronics Mattijssen.

The Anne Stibbe Music and Theater hall has been delivered in November 2019 and is now in use and the results are very satisfactory. In a subsequent project, we would like to make use of the knowledge and expertise of the Sound Agency again.

Yours sincerely, **MELIOR Real Estate BV**
